Approved For Release 2005/06/09 : CIA-RDP83M00171R001600030013-4

2. Proposed studies are listed in the order in which John wants me to commit PAO analytical resources to them. The following studies will not be undertaken by PAO at this particular time:

- Resource Management Implications of Crisis Support
- Research and Development Effort
- PAO Resource Analysis Support System

It should be noted that PAO may have to choose between doing either the nuclear monitoring study or something on system acquisition in the Intelligence Community. (U)

3. John also indicated that the prospectuses need to be revised and that particular attention should be given to improving the "specifics" of what will be studied. If you have any comments and/or suggestions on the prospectuses, please let me have them prior to Monday, 8 December 1980, so that we can consider them when we amend individual prospectuses. After we have revised the prospectuses, I will circulate them to you so that you can review what we have come up with as terms of reference for each study. My plan is to have most of the prospectuses revised by 12 December 1980.
